

CRIMINAL JUSTICE

FOR RESTORATIVE JUSTICE

The field of criminal justice is changing to embrace restorative healing and community-focused efforts. Learn to address complex social issues with real-world technology, grounded in faith.

WHAT WILL I LEARN?

These programs will teach you the practitioner skills you'll need in order to understand:

- **Human Intelligence** - Working with informants/assets on the ground
- **Signals Intelligence** - Such as intercepting digital communication
- **Open Source Intelligence** - Surfing the Internet and Dark Web
- **Cyber Investigations** - Investigating digital forensic activities
- **Intelligence Product Development** - Using technology to aid in investigations
- **The History of the Intelligence community** - The policy and law associated with casework, terrorism, extremism, and all aspects of intelligence gathering and dissemination

OUR GRADUATES WORK AS:

- FBI and US Customs and Border Patrol Agents
- CIA and NSA Intelligence Officers
- Local, State, and Federal Law Enforcement Officers
- Cybercrime Investigators
- Fraud Investigators
- Data Analysts
- Asset Protection for private businesses
- Investigators for the Public Defender & District Attorney's Offices
- Probation and Parole Officers
- Victim Assistance
- And many more possible careers!

CRIMINAL JUSTICE

The field of criminal justice is evolving. Embrace healing, restoration, and community building. Learn technical, investigative, and communication skills. Build your career in criminal justice and change the nation.

CYBERCRIME INVESTIGATIONS MINOR

Every crime has an element of digital evidence. Learn how to follow the digital breadcrumbs. Use investigative technology to keep the Internet safe and pursue justice.

CYBERSECURITY

Learn how to protect computer systems, devices, networks, and databases from digital attacks. Graduate ready to earn 3 resume-boosting certificates - Certified Ethical Hacker, Certified Information Systems Security Professional, and Certified Forensic Examiner.

HOMELAND SECURITY & APPLIED INTELLIGENCE

Are you interested in collecting and assessing intelligence to anticipate and prevent terrorist attacks or threats from organized crime? This is the degree for you. Learn to understand, track, and investigate criminal networks through the eyes of an intelligence operator. Study with experienced faculty while sharpening your critical thinking and investigative skills.

STUDENT SPOTLIGHT

“My professors prepared me to land my current job as a CyberTipline Support Specialist at the National Center for Missing and Exploited Children. I learned how to use different software, such as Electronic Evidence Examiner and more. Roberts showed me what it’s really like to work in this field.”

-Samuel Carducci

Homeland Security & Applied Intelligence Graduate
