STORIES LEADING THE WAY

"As soon as I met with Dr. Elvera Berry while I was on my first visit, I knew that Roberts offered a very personal learning experience. When I transferred in from my previous university, I felt an indescribable difference. I decided to study Communication because I've always prioritized people and quality relationships, and so does Roberts. My courses have a lot of variety, which makes learning fun while still reinforcing the concepts learned along the way."

– Sydney Hvizdzak '25 is a Communication major with a concentration in Media.
